THE THEORY OF NATIONALISATION

Book Condition: New. Publisher/Verlag: Springer Netherlands | In this book Professor Katzarov has made the first comprehensive study of nationalisation from the legal point of view. The author's knowledge of European languages, in addition to his mother tongue of Bulgarian, has enabled him to draw on material from England, France, the U.S.S.R. and the other communist countries of Eastern Europe, and many countries of Asia and Latin America. The book ranges widely in another sense. Professor Katzarov is a jurist in the best Continental tradition in that his work does not spring from a narrow technical outlook, but is a synthesis of historical, philosophical, political, economic and legal elements. Thus, he shows the way in which the constitutional and legal framework of nationalisation has been influenced by extra-legal elements. It is difficult to imagine a legal scholar trained in one of the Common Law countries producing a work as broadly conceived; and this is one of several reasons why the publication of an English edition is welcome. | Introduction: The Pre-legal Foundation of Nationalisation.- 1.
